

e-bulletin – November 2023

Dear Stakeholder

We will be doing survey work, vegetation clearance and CCTV installation on the M1 during December.

Safety is our number one priority and for this reason work of this type must be carried out using a full carriageway closure.

Therefore, we will need to have overnight road closures on the following dates:

Date	Duration	Closure details	Extra time to allow
Tuesday 5 December for 4 nights	10pm – 5am	Full overnight closure of M1 junction 13 to 11a Southbound	45 mins
Tuesday 5 December for 4 nights	10pm – 5am	Lane 4 closed overnight on M1 junction 11a to 13 Northbound	-
Monday 11 December for 1 night	10pm – 5am	Full overnight closure of M1 junction 9 to 11a Northbound	25 mins
Tuesday 12 December for 4 nights	10pm – 5am	Full overnight closure of M1 junction 11a to 13 Northbound	25 mins
Monday 18 December for 3 nights	10pm – 5am	Full overnight closure of M1 junction 11a to 10 Southbound	25 mins
Monday 18 December for 3 nights	10pm – 5am	Lane 4 closed overnight on M1 junction 10 to 11a Northbound	-

Please note these are provisional dates which may be subject to change due to conditions outside of our control, such as adverse weather or road incidents. We'll update our website accordingly with any changes, which can be accessed at: www.nationalhighways.co.uk/M1junction10-13

We're also working with colleagues across National Highways to ensure that the work is coordinated alongside other maintenance work being done, so that we minimise disruption to the public.

Drivers are asked to follow the signed diversion routes during these road closures. Please do not use satellite navigation (sat nav) when following the diversion, as they

may give conflicting information. Please be considerate of residents living along the diversion routes when using these roads when the M1 is closed. Diversion timings are approximate and are a guide only: please check Traffic England (www.trafficengland.co.uk) for current traffic conditions.

We'll do our utmost to complete the work as quickly as possible and keep disruption and noise to a minimum. However, we apologise that some activity may be noisy, for example, reversing beepers must be operational on our vehicles for health and safety reasons.

In addition to the information on the website, closure information and diversion routes will also be communicated via email. If you would like to be added to our mailing list, please contact us at m1j-10-13dhsenhancements@nationalhighways.co.uk. All contact information provided by you will be handled in accordance with [GDPR regulations on behalf of National Highways](#).

I hope this information is helpful and we sincerely apologise in advance for any inconvenience this essential work may cause. If you have any additional questions or concerns, please contact our National Highways Customer Contact Centre on 0300 123 5000 or info@nationalhighways.co.uk.

Yours faithfully

Kate Partridge
Project Manager
